- Prompt Engineer

Professional Experience

• Full Stack Web Developer | Talrop

Kochi, India - January 2024 - Current

- Maintained complex technology infrastructure and collaborated with product team to implement new features and strategically plan for future products.
- Collaborated with cross-functional teams to deliver high-quality software within tight deadlines.
- Reduced response times by implementing asynchronous tasks using Celery for background processing.
- Designed and implemented efficient database models using Django ORM, adhering to best practices for optimal performance.
- Integrated third-party APIs to enhance application features, providing a richer user experience.
- Enabled effective communication between frontend and backend components through well-structured API endpoints following RESTful principles.
- Developed user-friendly web forms with validation and error handling.
- Enhanced user experience by implementing responsive web designs and optimizing website performance.
- Collaborated in Scrum sprints to deliver features and improvements on time, ensuring alignment with project goals and agile methodologies.

Certifications

- UI Engineer | Steyp
- Backend Developer | Steyp

Freelance Full Stack Developer (Python Django)

- **Various Clients | Remote | June 2023**

- **Employee Management Progressive Web App**

- Successfully designed and deployed a basic operational employee-management PWA using Django, providing managers with an easy-to-use platform for monitoring and controlling employee activities.

- **Ecommerce Progressive Web App for Spare Parts Shop**

- Successfully designed and deployed a fully operational Ecommerce PWA using Django, offering users a real-time shopping experience for a spare parts retail shop.

- **Ecommerce Progressive Web App for Restaurant Equipment Shop**

- Successfully designed and deployed a fully operational Ecommerce PWA using Django, enabling users to browse and purchase restaurant equipment seamlessly in a live shopping environment.

Internship

- **Python Developer Intern | Inmakes**

Kochi, India (Remote) - June 2023 - December 2023

Implemented custom Python libraries to streamline workflows, designed efficient database models using Django ORM, integrated third-party APIs, and developed scalable RESTful APIs, all while collaborating with cross-functional teams to deliver high-quality software on time.

- **Full Stack Web Developer Intern | Steyp**

Edavanna, India - August 2020 - August 2023

Developed interactive UI components with ReactJS, created responsive web applications using HTML, CSS, and JavaScript, and leveraged Python Django for efficient server-side development. Collaborated with cross-functional teams to ensure seamless integration between front-end and back-end, and developed custom e-commerce solutions that streamlined the purchasing process and boosted sales conversions.

Education
